

CASH IN WITH **Cash** Sack

Australia continues to adopt positive measures to reduce waste volume going into landfill. These initiatives include the introduction of recycling programmes across the country which offer cash refunds direct to consumers in exchange for the return of eligible cans, bottles and containers to designated collection points.

However, the collection process is sometimes viewed as tiresome and perhaps in some cases even too difficult. Now there is a simple, low cost and environmentally friendly solution.

Very often simple ideas can deliver huge benefit and the 'Cash Sack' is a classic example.

The 'Cash Sack' provides a simple solution that will assist and encourage every household in Australia with the collection and delivery process. For the consumer it will make the process of getting cash back even easier and importantly, for government it will increase overall return volumes consequently helping to meet landfill reduction targets and it will increase the profitability and sustainability of all recycling schemes in Australia.

- Low-cost environmental essential.
- Snap fits onto existing household "Yellow" recycle bin for convenience of sorting.
- Easily removed from the household bin for refuse collection and easy transportation to any of the various recycling depots.
- Made from 100% waterproof recyclable material.
- Huge capacity, (between 170 to 220 mixed cans & bottles on average per fill).
- Super tough, can hold up 35Kg of mixed bottles, cans and containers.
- Convenient carry handles to lift in and out of car at depot and flap top to keep dry.
- Fits easily into vehicle for transport – no need to repack.
- Self-standing once it has approx. 30 products in bag.
- Less waste – old containers become new ones.
- Less Litter and land fill.
- Households can donate their refund to Charities and community organizations.
- Charities & community organizations can advertise to do a bag swap day where they visit a suburb and offer to take the Cash Sack and the money it generates for their charity and replace it with a replacement empty sack for free.
- Will increase the number of containers being recycled significantly and thus reduce the amount going to land fill.
- 2 Year warranty.
